

September Attribute is **COURAGE**

I will stand up for my beliefs and principles and faces challenges, fear and difficulty with fortitude.

When I Work with COURAGE

I Will...

Continue to do what I know to be right even when it might be easier to follow another path.

Ensure that my feelings of “I can” are stronger than my feelings of “I cannot.”

Take risks to do the right thing even when it might challenge the beliefs and behaviours of others.

Look honestly at both my strengths and areas that need development.

Practical suggestions...

- Express your opinion and point of view in meetings.
- Ask questions when you’re not sure about something.
- Do not hesitate to suggest ideas that would benefit the company even when they may not be shared by others.
- Do not take part in a point of view or a course of action in which you do not believe.

“Courage is never to let your actions be influenced by your fears.” Arthur Koestler
